(1)This table represents state Medicaid system payments plus payments made by counties to primarily medical vendors not covered by the central payments system. Also, in this table, each person is counted under all service categories for which payment is made in his/her behalf during the year.

(2)Recipient recoveries represent third-party collections such as health insurance payments, tort recoveries, and estate settlements, which cannot be tied directly to a specific service billing. The dollar values under this category are always negative.
